

# Hive Doctor Original Bottom Board

**1.** Three hive entrance options at the turn of a dial - Open/Wasp Stop/Closed

**2.** Hive Locators to assist the returning queen to identify her hive and reduce bee drift

**3.** Detachable pest trays available separately to monitor Varroa levels or to close off venting

**4.** Guide groove to assist location of steel strapping plus strengthened mid-section to handle high loads

**5.** Brood Box leverage areas to enable ease of opening the hive with a hive tool

**6.** Semi ventilated base (6% ventilation)

**7.** Corner Pallet anchors to fasten bottom board to pallets to create a strong integrated hive base.
