Available
exclusively
from
Ecrotek

OUR RANGE INCLUDES:

- **Brood Booster** 1L and 20L
- **Power Feed** Powder
- **Power Feed** Patties

VitaHive is a new range of scientifically researched and formulated bee health and nutrition products to deliver stronger and healthier hives.

Our advanced manufacturing techniques produce highly palatable supplementary feeds with a superior blend of selected ingredients to produce better brood, higher honey yields and improved pollination.

The outstanding new VitaHive range is proudly manufactured in New Zealand free of GMO and soy product ingredients.

Bee fit and Bee strong with VitaHive.

Boost your brood with **VitaHive™** Brood Booster™, formulated to help break winter dormancy by stimulating the queen to lay. Scientifically researched ingredients, including complete amino acid profile, provide vital nutrition for brood rearing and royal jelly production. Added essential oils assist feed uptake, improve hive health and slow syrup fermentation.

Feed **VitaHive™** Brood Booster™ in sugar syrup late winter and early spring for maximum results.

Bee fit and Bee strong with VitaHive™.

NEW

apitraz
Amitraz 500mg
EASY STRIP

Distributed in New Zealand by

ECROTEK
Keeping ahead

Deadly to Varroa, safe on bees

- ✓ Kills over 98% of mites in a single treatment*
- ✓ Strips designed for fast and efficient in-hive application
- ✓ 10 week treatment period**, which can play a key role in reducing infestation
- ✓ Used in over 1 million hives throughout Europe
- ✓ Highly toxic to varroa but safe for bees and queens

KILLS OVER 98% OF MITES*

TWO STRIPS PER BROOD BOX

* When the amount of brood is low and there are only 1-2 brood frames. 1. Sánchez Escudero, M.D., Fernández Tejedor, T., Calatayud Tortosa, F., Zabalgoeazcoa, I., Sánchez Martín, M. J. (2016). Fight against Varroosis in beehives. 2. Babiano Serrano, J.A. (2015). The Apitraz Efficacy Test Report (Badajoz). 3. Casas Ramos, B. The Study of Apitraz to Control Varroa. Apicultura ibérica. 2013;4:24-29.

**New MPI requirements for all Amitraz based products now allow for a 10 week treatment period and also require a 14 day withholding period (the minimum period of time that must elapse after removal of the strips before placing honey supers on the hive).

Keeping ahead *with*

HoneyMax

Less wax, more honey!

*Pink for easy
identification*

*Large Cells for
faster, cleaner
extraction*

*Up to 110g more
honey extracted
per frame**

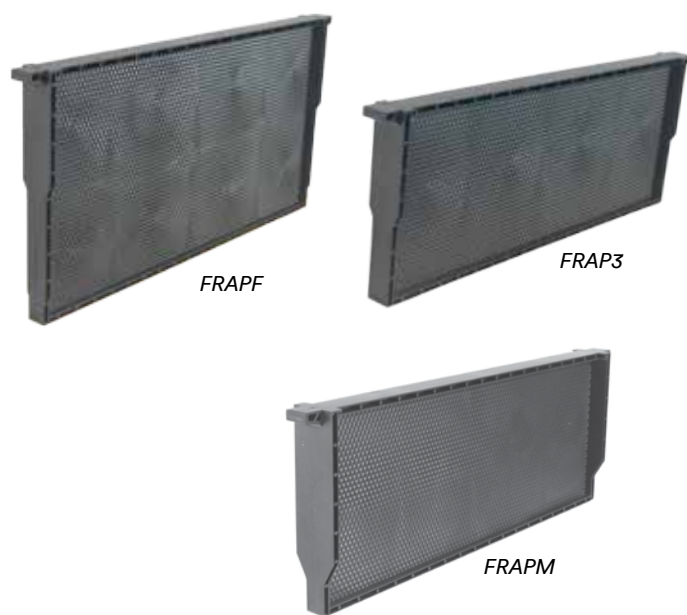

Field tested and proven by beekeepers throughout New Zealand, our new HoneyMax frames are an evolution in honey extraction. The larger cell size reduces extraction time, releases honey more freely and improves yield so you can watch that honey flow.

Fewer cells per frame also means less beeswax is used, resulting in faster comb production with less honey used to make it.

All frames available in your choice of 30g waxed or unwaxed.

Equipment

Keeping ahead of the Frame Game

It must be said, all frames are NOT equal. By using Beetek pre-waxed frames, not only will you save time, but you'll prevent your precious beeswax resource from being wasted.

Our waxed frames are ahead of the rest

Beetek waxed frames have been sprayed using a sophisticated process, developed over time to deliver pinpoint precision waxing on both sides of your frame for consistent honeycomb build up.

But best of all is our unique application that bees just love to build comb on.

All Beetek frames, waxed and non-waxed, have production date stamps to help you keep track of your frame's age and to help with hive management. They're also proudly made in New Zealand from quality food grade materials.

Beetek frames. New Zealand's most widely used and accepted plastic frame!

*Minimum quantities apply

Queen Marking Colour Guide

Beetek Ultimate One Piece Queen Cage

Bees can be scoop filled via the large entrance or filled individually via the smaller entrance

Firm clipping mechanisms to ensure cages stay shut

Large cage with ample venting to allow for improved trophallaxis and scent exchange

Snap off candy access tab

Cages stack easily for bulk usage

Separate bee and candy cage access

Side venting helps airflow when cages are fitted tightly between frames

Made in New Zealand using quality food grade materials

Single piece, hinged design. Easier to use one handed or in gloves.

NZ / AU Design Registration Pending

apitraz

Amitraz 500mg

EASY STRIP

**KILLS
OVER
98%
OF MITES***

Deadly to Varroa, safe on bees

- ✓ Kills over 98% of mites in a single treatment*
- ✓ Strips designed for fast and efficient in-hive application
- ✓ 10 week treatment period**, which can play a key role in reducing infestation
- ✓ Used in over 1 million hives throughout Europe
- ✓ Highly toxic to varroa but safe for bees and queens

TWO STRIPS PER BROOD BOX

Keeping ahead

* When the amount of brood is low and there are only 1-2 brood frames. 1. Sánchez Escudero, M.D., Fernández Tejedor, T., Calatayud Tortosa, F., Zabalgoceazcoa, I., Sánchez Martín, M. J. (2016). Fight against Varroosis in beehives. 2. Babiano Serrano, J.A. (2015). The Apitraz Efficacy Test Report (Badajoz). 3. Casas Ramos, B. The Study of Apitraz to Control Varroa. Apicultura ibérica, 2013;4:24-29.

**New MPI requirements for all Amitraz based products now allow for a 10 week treatment period and also require a 14 day withholding period (the minimum period of time that must elapse after removal of the strips before placing honey supers on the hive).

What do you call a bee
that lives in America?

a USB!
